How can news reporting support people in better quantitative reasoning?

Patti Parson (PI), Jena Barchas-Lichtenstein (co-PI), Laura Santhanam, Jim Hammerman, Eric Hochberg

Project Activities

Journalists

Publics

Regular forums of journalists & social scientists (Slack & Zoom)

Experimentation with different ways of presenting stats in news graphics & text

Focus groups & experiments with audiences

Resources to support journalists beyond our team

Practices with numbers & data

Understanding: what does the public need to make sense of numbers?

Understanding **stories** that use math & data

Understanding math & data in context

Public capacity for critical thinking about important issues
