Co-PIs: Sinem Siyahhan (CSUSM)

## Project Description

Expand the Mobile Making program, ensuring its sustainability and reaching underserved youth across various communities. In Mobile Making, undergraduate STEM Ambassadors engage youth in hands-on STEM Making.

## Key Achievements

- Three CSU campuses have launched new Mobile Making programs (Fresno Long Beach, and San Luis Obispo)
- Effective scaling involves balancing consistency in core program with flexibility for different settings

## Audience & Settings

**Audience:** Youth in grades 3-8

**Disciplinary area:** Hands on STEM Making

**Learning environment:** After school programs, libraries, community centers

## Access and Inclusion

Diverse undergrad facilitators serve as near-peer mentors and bring STEM engagement to youth in underserved communities
